2025 POLICY UPDATES

* All artwork submitted must be 100% print ready to avoid artwork fees. This includes proper coloring with designated stock colors or Pantone codes. If colors are not provided with your order, we will match colors as closely as possible to stock ink colors and bill a recoloring fee.

* We no longer allow ink color changes in screen printing. Any change in artwork is a break in quantity and will be billed accordingly

* Orders will not be scheduled or staged until ALL items have been received in production. Please adjust your ordering and delivery accordingly. Delays in receiving garments has become a serious problem that is having a tremendous effect on our efficiency and the ability to meet deadlines. Timelines and stated turnaround will not begin until all garments are in our possession, regardless of approvals.

NOTE

While 10:9 Design LLC does offer contract screen printing services for quantities in the 12-36 range, we recommend transitioning to Direct-To-Film (DTF) for high-color count prints. The setup costs and time required for screen printing higher-color runs for fewer than 36 prints may not be the most efficient option. We still offer screen printing for these quantities but please note that the pricing reflects the additional time and effort involved in the process.
